# ABOUT US

At Access Recreation LLC, we are geared towards creating the most cost-efficient, aesthetically pleasing, and expedient playground projects that we can for our customers. In addition to playground equipment, we also offer sales of park site amenities such as shelters, shade structures, benches, picnic tables, bicycle and scooter racks, dog park equipment, outdoor fitness equipment, and more so that we can assist you with creating the perfect outdoor space.

Our playground equipment is manufactured by Henderson Recreation Equipment and is fully customizable to fit your needs. Henderson Recreation is a family-run playground manufacturer which has been dedicated to providing unique, innovative and safe playground equipment for the past fifty years. Henderson playgrounds are designed to last 20+ years or more with proper maintenance and they provide one of the best warranties in the market.

## **Safety-Driven, Low Maintenance and Long Lasting**

All of Henderson's play equipment was designed with safety in mind and complies with all ASTM, CPSC and IPEMA safety guidelines and standards. Henderson designers are expertly trained to design challenging, age-appropriate equipment for the target user group. When it comes to safety standards and product testing, Henderson stands out from other manufacturers by going beyond the minimum industry standards, performing their own specialized product testing to ensure all their products meet strict standards for quality and safety and by utilizing unique safety design features. Products are designed to be lasting with low maintenance on your part.

## **Recycled Material Content and Sustainability**

Henderson makes it a priority to use recycled, recyclable, and renewable resources wherever possible. They also use lean manufacturing facilities for reduced material waste and energy consumption while ensuring the quality, consistency, accuracy and timeliness of each and every product sold. Their HDPE sheet plastic contains up to 67% recycled content and their non-skid plastic contains up to 50% post-industrial recycled content. At the end of their long life, all of their plastics are 100% recyclable.

# HOW IT WORKS

Every child deserves to have a safe place for stimulating outdoor play. If your school playground or outdoor space needs upgrading, then this is the program for you!

Our Fundraiser Incentive Program was created to help make playground fundraising easier for school PTA/PTO organizations like yours by providing set monetary goals and to help you reach your playground goals faster by offering FREE products once certain fundraising goals have been reached.

Our program is broken down into different monetary tiers. When you reach a particular tier, you can select what you want to purchase from the products listed within that tier AND you get that tier's "freebie" item(s) at zero additional cost to you.

Not interested in the products shown in a certain tier or have a different product in mind? No problem! Check out our catalog and let your sales representative know what products in particular you are interested in so that we can come up with a customized solution to fit your needs.

Most of our products are available in a variety of different colors and many, such as shelters, shade structures, and outdoor furniture, are available in different sizes/designs as well.

There is no cost to enroll in our program or to get additional information from us. **To enroll, please download and complete the enrollment application from [www.acrecreation.com/fundraiser](http://www.acrecreation.com/fundraiser) and return to us at [info@acrecreation.com](mailto:info@acrecreation.com).** A dedicated salesperson will work with you to discuss your project needs and help you figure out what products will be the best for you.

We are dedicated to helping you create the perfect outdoor recreational space for your school!

\*Please note that tier prices only include the purchase of the listed product(s) and shipping costs. Installation and playground safety surfacing are not included. We can provide a separate quote for surfacing upon request. Installation by our parent company, J. Oliver Construction LLC, is available in some states for an additional cost. When you enroll in our program, your salesperson will let you know if installation by our CPSI certified installers is available in your area.

The pricing included in this brochure is good through the 2022-2023 school year (from August 2022 through May 2023). Allow 10-12 weeks for delivery once an order has been placed.

To enroll or to find out more, visit our site at [www.acrecreation.com/fundraiser](http://www.acrecreation.com/fundraiser)
